Lahore, Pakistan

SUMMARY

I am a versatile Full-Stack Developer with proficiency in modern technologies, including Next.js, React, MongoDB, PostgreSQL, and Express.js. I excel at integrating user interfaces with scalable backends, ensuring efficient and maintainable web solutions. My experience with version control using GitHub allows me to work collaboratively while delivering high-quality results.

EXPERIENCE

Full Stack Developer

Xsuite-digital

📅 09/2024 Present   📍 Lahore

A digital solutions provider specializing in innovative web technologies.
- Optimized performance and user experience for full-stack applications.
- Implemented advanced state management using Redux-Toolkit ensuring scalability in large-scale systems.

Full-Stack Developer Intern

Ideoversity

📅 05/2024 08/2024   📍 Lahore

An educational organization focusing on skill development.
- Developed dynamic, responsive web applications using React, Tailwind CSS, and JavaScript.
- Collaborated with backend developers to integrate APIs and improve user experience.
- Led the design and development of client-side functionality.

PROJECTS
